Example) – Rustic Tree
Decorations

0.25" End Mill

Finishing Materials eg
Sander, Sandpaper, Saw to
cut tabs, Paint, Glitter and
Ribbons for decoration!

If you plan to cut this project please ensure that you recalculate all toolpaths using settings that are safe and appropriate for your machine, the tools you have and the material you are using.

These rustic looking decorations are quick to cut and fun to decorate!

This project is fairly straight forward – the file contains four decorations; a love heart, a tree, a star and a stocking. The hanging holes are cut with a simple pocket toolpath cutting all the way through the material and to cut the part out we use a simple profile pass. To finish you can decorate these anyway you like!
